According to the integration of Ukrainian higher education system into the European educational space and the study of foreign experience, every field of study should be renewed. Nowadays musical education needs new approaches, professionals and the development of new curricula.

The educational and professional program "Instrumental and Orchestral Art" is built logically and consistently. The object of study, goals and program learning outcomes and resources of the program are presented in materials. The general current issues for the specialty 025 "Musical Art" are reflected with educational components of this program. It is focused on the gaining of special competencies in the field of musical instrumental and orchestral art.

One of the most important principles of development of Ukraine as European country is a preservation and development of national musical culture, which is the main task of specialists in different fields, including musicians. The reviewed educational and professional program "Instrumental and Orchestral Art" developed in the Separate Subdivision "Mykolaiv Branch of the Kyiv National University of Culture and Arts" is focused on this issues.

In conclusion, we can recommend the educational and professional program "Instrumental and Orchestral Art" of Bachelor degree for implementation in the Separate Division "Mykolaiv Branch of Kyiv National University of Culture and Arts".
